

# HEMP HEALING SALVE

## EDUCATION:

**CBD Hemp Healing Salve** can be used transdermally to relieve pain and pretty much singlehandedly resolve just about any condition on the skin with relative ease. Our Hemp Healing Salves effective treatments for most skin conditions certainly for skin cancer, burns, itching, infections and rashes. CBD Hemp oil is a natural anesthetic and a natural antibiotic.

**Arnica** is applied to the skin for pain and swelling associated with bruises, aches, and sprains. It is also applied to the skin for insect bites, arthritis, muscle and cartilage pain, chapped lips, and acne.

**Jojoba oil** has antibacterial properties that help control bacterial growth in the hair follicle. It acts as an anti-inflammatory agent, soothing the irritated skin. When used regularly, Jojoba oil can control acne. The Vitamins A and E in the oil also may have a role in this.
